LONDON METROPOLITAN UNIVERSITY

CS6W50 Career Development Learning (CDL) Form

Student

Student Londonmet ID: 22067327

Student Name: Arshiya Khanal

College E-mail ID: np01ai4a220043@islingtoncollege.edu.np

Mobile No: 9818037695

Student's work/placement address: Sankhamul-11, Lalitpur (Remote)

Employer

Employer Name: Treeleaf Technologies Pvt. Ltd

Employer's Address including department: Sankhamul-11, Lalitpur

Company Supervisor's Name and Position: Pravesh Kaji Budhathoki, Computer Vision Engineer

Company Supervisor's Tel No: 9860073530

Company Supervisor's email address: budhathokipravesh5@gmail.com

Work Related Learning Activity

Start Date July 1, 2024

End Date (if known): September 27, 2024

Your role at the placement (position): Machine Learning Intern

Brief description of your work at the placement:
During my internship, I will research and use the latest models for action recognition and object detection. I will explore their architectures, understand their applications, and contribute to the company's GitHub repositories. I will collaborate with team members and my supervisor. I will test these models on different tasks and document my findings.

Proposed learning outcomes from the Work Related Learning Activity:
It is very important that you read the learning agreement guide before filling in this form. You need to list **at least 7 learning** outcomes, and at least **two** learning activity should be closely relevant to the course you are doing at the university.

Learning Outcome ID	**Learning outcomes** By the end of my work placement, I will be able to develop what skills or knowledge: (e. g. develop my XXX skills, enhance my knowledge of XXX)	**Activities and tasks** I will achieve this learning outcome by carrying out what tasks (e. g. participating in a Web development project, or to work in a team, or to engage in group discussion)	**Evidence** Evidence I could use to demonstrate that I have achieved this learning outcome? (e. g. feedback from the employer, artefacts I will develop, screen shots or video capture, meeting minutes)
LO1	By the end of my work placement, I will enhance my teamwork and communication skills.	I will achieve this learning outcome by collaborating with my supervisors and team members to ensure that project tasks are completed on time.	I will provide feedback from my supervisor, daily updates, and screenshots of GitHub collaborations.
LO2	By the end of my work placement, I will be familiar with data annotation.	I will achieve this learning outcome by working on data annotation tasks for training ML models.	I will provide screenshots of the annotations and evidence of using the annotated data in the model training process.
LO3	By the end of my work placement, I will be familiar with object detection.	I will achieve this learning outcome by testing different versions of YOLO for object detections and using them in projects.	I will provide a few source code and training logs.
LO4	By the end of my work placement, I will be able to understand and visualize model predictions.	I will achieve this learning outcome by using tools like Grad-CAM and Saliency Maps to understand how the model makes its decisions.	I will provide code snippets and screenshots of visualizations.
LO5	By the end of my work placement, I will improve my research skills.	I will achieve this learning outcome by researching on different tasks assigned to me and	I will provide research notes and code snippets.

		applying the findings to my work.	
LO6	By the end of my work placement, I will improve my project management skills.	I will achieve this learning outcome by dividing project into milestones and managing tasks effectively.	I will provide screenshots of task management tools and progress reports.
LO7	By the end of my work placement, I will enhance my problem solving and analytical thinking skills.	I will achieve this learning outcome by identifying problems and applying logical solutions.	I will provide screenshots of error logs, the solutions I implemented and the results.
LO8	By the end of my work placement, I will gain knowledge about LSTM architectures and optimization techniques.	I will achieve this by implementing LSTM models in my projects and exploring methods to fine-tune and optimize their performance.	I will provide code snippets, screenshots of the optimization process, and training logs.
LO9	By the end of my work placement, I will improve my documentation and writing skills.	I will achieve this by creating clear documentation for my work.	I will provide screenshots of documentation and user manuals.

This form is approved by WRL academic supervisor

London Metropolitan University School of Computing

If you work at an external company or organization, the following "Heath and Safety checklist" form must be completed before your placement can be approved.

LONDON METROPOLITAN UNIVERSITY

External Work Related Learning (PLACEMENT) PROVIDER HEALTH AND SAFETY CHECKLIST

Name of the Placement Provider (Company name): Treeleaf Technologies Pvt. Ltd
Placement site Supervisor: Pravesh Kaji Budhathoki
Supervisor's Position: Computer Vision Engineer
Address: Sankhamul-11, Lalitpur
Email: budhathokipravesh5@gmail.com
Telephone: 9860073530

		Yes	No
1	Do you have a written Health & Safety policy?		✓
2	Do you have a policy regarding health and safety training for people working in your undertaking, including use of vehicles, plant and equipment, and will you provide all necessary health and safety training for the student?		✓
3	Is the organization registered with? (tick as appropriate) (a) the Health & Safety Executive or (b) the Local Authority Environmental Health Department		✓
4	**Insurance** (a)Is Employer and Public Liability Insurance which will cover the duration of the placement? (b) Employer and Public Liability Insurance policy number _____ (c)Will your insurance cover any liability incurred by a placement student as a result of his/her duties as an employee?		✓
5	**Risk Assessment** (a)Have you carried out any risk assessment of your work practices to identify possible risks whether to your own employees or to others within your undertaking? (b)Are risk assessments kept under regular review? (c)Are the results of risk assessment implemented?		✓
6	**Accidents and Incidents** (a)Is there a formal procedure for reporting and recording accidents and incidents in accordance with RIDDOR (Reporting of Injuries, Disease & Dangerous Occurrence Regulations)? (b)Have you procedures to be followed in the event of serious and imminent danger to people at work in your undertaking? (c)Will you report to the university all recorded accidents involving placement students? (d)Will you report to the university any sickness involving placement students which may be attributable to the work.		✓

The above statements are true to the best of my knowledge and belief.
